P.O. Box 94183, Capitol Station
Baton Rouge, LA 70804-9183

Dear President Alario, Speaker Kleckley, and Honorable Chairs:

Senate Bill No. 305 of the 2003 Regular Session requires that the Department of Health and Hospitals (DHH) submit certain information on a semi-annual basis regarding the Medicaid buy-in program, the Medicaid Purchase Plan, to the Joint Legislative Committee on the Budget and to the House and Senate health and welfare committees. The report is to include the status of MPP, the estimated value of the state, federal, and FICA taxes paid by the program's participants, and any recommendations for expanding coverage in the program. La-R.S. 24:772 also requires that the report be submitted to the President of the Senate and to the Speaker of the House.

The last report submitted to the legislature on January 31, 2013, contained data from the first half of SFY 13. Please accept this update that contains data for the entire SFY 13.

Program Overview

The Medicaid Purchase Plan (MPP) is an optional Medicaid program that provides health care coverage to individuals with disabilities who are employed and meet specific income requirements. MPP was implemented in January 2004 and it provides full medical coverage that includes

prescription drugs, hospital care, doctor services, medical equipment and supplies, and medical transportation. Since the inception of MPP, 7,350 individuals have been enrolled in the program. Enrollment as of June 30, 2013 was 2,178.

Informing Louisiana citizens of the existence of MPP is a priority of DHH and partner agencies. The Department accomplishes this through job fairs specifically targeted to people with disabilities, partnering with government agencies such as the Louisiana Workforce Commission and Louisiana Economic Development, community-based organizations, medical providers and employers. The Department attends community events to promote the availability and benefits of the program. In SFY 13, over 3,600 MPP applications were given out across the state at schools and universities, businesses, other government agencies, and job and health fairs.

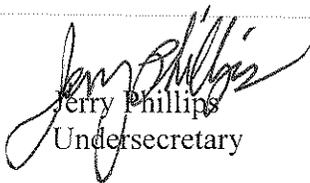

Positive Impact of MPP

In addition to the buying power that employed individuals bring to Louisiana's economy, many enrollees are paying premiums that help to offset the cost of the program. Since the inception of the program, a total of \$1,190,377 in premiums has been collected. In SFY13, \$222,950 in premiums was paid to DHH for enrollment in MPP. The enrollees are tax paying citizens who contributed \$3,393,856 in federal taxes (includes FICA and federal income tax) and \$571,354 in state taxes during SFY 13.

The Department recognizes that work is a fundamental part of adult life for people with and without disabilities. The Medicaid Purchase Plan is an essential component of supporting individuals with disabilities as they strive to become self-sufficient.

Thank you for allowing us the opportunity to present information regarding MPP. Mr. Edward Fowler with the Bureau of Health Services Financing /Medical Vendor Administration (Medicaid) is available to discuss this letter with you should you have any questions or comments. Please contact Mr. Fowler at (225) 342-7242 with any questions or comments you may have.

Sincerely,

Jerry Phillips
Undersecretary
