

National Healthcare Safety Network/Emerging Infectious Diseases Workshop

Sponsored by Louisiana Department of Health
Office of Public Health - Infectious Disease Epidemiology Section

The Infectious Disease Epidemiology Section will hold three one-day workshops in the following cities in Louisiana: Metairie, Bossier City and Alexandria. This education is targeted towards infectious disease preventionists that are seeking to reduce the number of hospital acquired infections and prepare for emerging infectious disease threats that may present in their facility. The training is free of charge but must be registered for because of seating limitations and to provide the adequate number of handouts.
