Page 22, Section IV, “Proposals”, (P) “Proposal Contents”, item 3:

~~3. Proposals should define proposer’s functional approach in providing services and identify the tasks necessary to meet the RFP requirements of the provision of services, as outlined in Section II. Proposer shall clearly outline the solution’s technical approach as it relates to service oriented architecture. Details should include a description of capability and potential strategy for integration with future DHH wide enterprise components as they are established, specifically making use of an enterprise service bus for managing touch points with other systems, integration with a master data management solution and flexibility to utilize a single identity and access management solution. The Proposer shall clearly identify any systems or portions of systems outlined in the proposal which are considered to be proprietary in nature.~~
